
ECA DECLARATION OF ELIGIBILITY

The Enhanced Capital Allowance (ECA) scheme is being developed by the Department for Energy and Climate Change (DECC) and HM Revenue and Customs and promoted by the Carbon Trust.

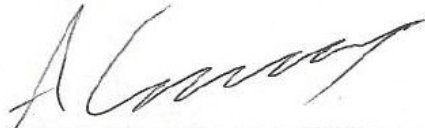

The Carbon Trust manages the Energy Technology List that comprises the technologies that qualify for the UK government's Energy-Saving Enhanced Capital Allowance scheme and their energy-saving eligibility criteria.

The Energy Technology Criteria List contains details of the energy-saving criteria that must be met for each of the technology classes.

312 DIGIDIM Multisensor
910 DIGIDIM Router
920 DIGIDIM Router
924 DIGIDIM LCD Touch Panel

The Helvar Limited equipment listed above falls within one or more of the five different categories of **Lighting Controls** covered by the ECA scheme and satisfies the category eligibility criteria as listed within Tables 1 to 5 of the **ENERGY TECHNOLOGY CRITERIA LIST (2009)**.
